Web Development Project

Creating a React Project   Fullstack Academy
Programmer   Feb – Oct 2023
- Implemented data fetching and state management.
- Connected event listeners to relevant components and elements, ensuring accurate tracking of user actions.
- Implemented a feedback mechanism that informed users about the outcomes of their actions.

Creating a Local Webpage   Fullstack Academy
Programmer   Feb – Oct 2023
- Created a connection between a webpage to server and the server with an API.
- Used Javascript to compare the API data then display it on a local webpage.
- Customized the local webpage using HTML, and CSS to display the information.

Project Demo

- **Portfolio Page: https://daonguyen-portfolio.netlify.app/**
- **Shop Website on The Frontend: https://dn-shop.netlify.app/**
- **Shop Website on The Backend: https://store-dcq8.onrender.com/api/products**

Work Experience

Amazon Warehouse
Associate   May 2022 – Present
- Operate material handling equipment in safe and efficient manner; including forklifts and PIT machine.
- Inspecting and/or examining each item to ensure that they are not damaged.
